THE LEWIS DRUG COMPANY, Pensacola, Fla.

By proclamation of President Wilson, 10,576 acres of lands near Elba, Ala., which were formerly within the Cherokee and Chickasaw Indian reservations, have been opened for settlement. These lands are said to be the most valuable ever offered for sale by the government. The lands will be sold at public auction at Elba, November 15, in tracts not exceeding eighty acres each.

The federal demand of the Italian government for the extradition of Porter Charlton has been forwarded by the foreign office of the Italian embassy at Washington. This is the first time Italy has made a demand for the extradition of an American citizen, and inasmuch as Italy always has refused to grant extradition for Italians who commit crimes in foreign countries.

Mr. and Mrs. T. Barbour, of Pensacola, Fla., received from Governor Gilchrist a handsome silver bearing the seal of the state of Florida, March 19 years ago, the wife, now only 37 years old, Mr. and Mrs. Barbour are the parents of 13 children. Six of the children and twins, Governor Gilchrist suggested that the Legislature pass an act allowing the parents a pension.

That Atlanta will be the meeting place of the Southern Commercial Congress when it convenes in the fall is now absolutely assured. The organization is composed of the most prominent business men in the south, and as the convention will bring together several hundred of these progressive men, it will be one of the most important of the year.

Savannah's conscience fund is richer by \$1,500 as the result of an unknown man's bequest. The money was handed to Mayor Tiedeman on the city's main street by a prominent minister, who declared it had been taken from the city by one who wished to keep his name a secret. The minister was made intermediary after giving his word of secrecy.

Cheered by an audience of progressive republicans at the "people's candidate for governor of Ohio," James R. Garfield, at Cleveland, O., opened the fight to place Ohio in the insurgent column. In a two hour speech, in which he avowed himself an "insurgent" and enlivened the section of congress which is known by that name, the former secretary of the Interior set forth the platform upon which the "progressive" republicans of Ohio will enter the fall campaign.

The republican convention of the Eighth Congressional district, held in Decatur, Ala., nominated George M. J. as candidate for congress, to oppose Judge William Richardson, of Huntsville, democratic nominee.

Camp Meeting Notes.

BY REV. H. B. URQUHART.

Watch the camp meeting column.

Friday night before the fourth Sunday in August is the time.

The camp meeting will include the first Sunday in September.

Did you see those circulars last Saturday? They told the story.

Last Friday's paper carried the news.

S. Felder says: "We cannot imagine any one thing calculated to do more real, lasting good than this old time camp meeting. It will bring all the people together and revive that old time religious fervor for which this section was long ago famous."

Let us have one more taste of the old time religious fervor.

Come unto me all ye that labor, and are heavy laden, says Christ, and I will give you rest.

S. Felder says: "We are sure that every reader of The Clipper will be pleased with the idea of the meeting, and that everybody will be willing to help make it the greatest religious meeting ever held in this section."

Leave off your fine clothes and stiff airs and come to the brush arbor where you will kneel in the pine straw.

In the day that you seek God with the whole heart he will be found of you.

It was under the old fashioned brush arbor, down in the pine straw where your mother was converted. How she shouted.

All this stir about the camp meeting makes the folks talk.

Conviction for sin, if heeded leads to repentance; repentance leads to faith; faith leads to conversion; conversion makes you a child of God.

The old fashioned brush arbor, the old fashioned pine straw, the old fashioned dirt fire stands.

Come humble sinners in whose breast a thousand thoughts revolve.

The assembled multitudes, the blazing fires, the neighing of horses, the rumbling wagons, the swelling songs, the fervent prayers, the triumphant shout—the old fashioned camp meeting.

Come with your guilt and fear oppressed, and make this last resolve.

God is moving upon the hearts of the people.

Religion stirs people.

Jesus, I, my cross have taken, all to come and follow thee.

Old time religion makes old time folks old time children of God, with old time heaven on earth.

I can but perish if I go; I am resolved to try. For if I stay away, I know I must forever die.

The time? Aug. 30—Sept. 4.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Coffee County Sunday School Convention.

The Coffee County Sunday School Convention met in annual session at Brooklyn church the 10th and 20th of July 1910.

The meeting was called to order by county President Hon. J. A. Carnley. The regular secretary being absent R. B. Carr was elected secretary.

It was impossible to carry out the regular printed programs on account of the absence of a number of the speakers, however an interesting and profitable program was rendered.

The Brooklyn church was holding a protracted meeting, so the morning and evening sessions were given over to the meeting, on both occasions. The convention heard able sermons by Rev. H. B. Urquhart, pastor of the Methodist church at Elba.

The afternoon session was given over to the discussion of interesting subjects, by Mrs. Claude Riley, Rev. Mr. Urquhart, Mr. Holloway and others.

The following committees were appointed: Committee on resolutions, R. B. Carr, J. F. Johnson, and W. T. Moore. Committee on nomination: R. B. Carr, Mrs. Claude Riley, J. A. Carnley, A. T. Jones, and W. H. Merriweather.

During morning and afternoon session of the second day the convention was lucky in having Mr. W. D. Dillard, State Supt. of the Home Department, who gave able talks on the great work in which he is so much interested, as well as talks on other subjects of the Sunday school work.

The following reports were heard and adopted, Committee on Resolutions: Resolved: That the Coffee County Sunday School Convention, the delegates and visitors tender to the good people of Brooklyn community their sincere thanks and hearty appreciation for their courtesy and hospitality extended to the convention, may God's richest blessings continually abide with them in their homes and vocations, and be their daily guide through life.

Be it further Resolved: That we extend to our retiring president, Hon. J. A. Carnley, our heart felt appreciation for the great work he has done for the Sunday school movement in Coffee county.

Committee on Nominations, made the following report: G. T. Hildreth, County Pres. Prof. G. C. Bowden Vice " W. M. Jenkins Secy. & Treas. Miss Eunora Farris asst.

FIRE DESTROYED CAMPBELL'S

Naval Stores Concern Suffered Thousands Dollars Loss by Fire in Elba, Friday.

Friday the big still of the Campbell Company near Glenwood and near the Coffee and Crenshaw line was destroyed by fire. A run of turpentine was being made, when in some manner the still got beyond control and began boiling over. The still and still house was soon covered with flames, and the fire spread to a big lot of crude gum in barrels, and this was also destroyed.

For some time prior to the fire the shipments of spirits and resin from the still had been heavy, so that only a small amount of each was on the yard and so the loss was about as small as it could be; about sixty barrels of gum was destroyed. The total loss is about two thousand dollars, with no insurance, the risk being so great on turpentine stills that insurance rates are practically prohibitive.

The still will be replaced as quickly as possible, and while the loss is considerable it is not very serious, as turpentine is high and the Campbell Company is in fine shape financially.

\$18,000 Worth of Flour and Corn Reported Confiscated.

The Georgia state department of agriculture has condemned about \$18,000 worth of defective corn and flour and stopped its sale in this state. The department through the state food inspector P. A. Methvin, has condemned in Macon, Ga., under the pure food law 11,500 bushels of corn, 10,000 bushels of which can only be sold when branded. "Damaged corn; for bag feed only." The remaining 2,500 bushels can only be sold under Section 17 of the pure food law, which directs that the purchaser must be notified in writing of the nature and extent of the damage.

Nothing was also served by the department prohibiting the sale of 185 barrels of flour held up as being "bleached." It is also understood that the state chemist is working on samples taken from a shipment of more than 700 barrels of flour. Tests made so far show that the flour is bleached.

Corn is now selling for about \$1 per bushel and flour is quoted at about \$6 per barrel, so if the consignees are forced to sustain the loss they will be out nearly \$75,000.

NO CONGRESS PROBE.

Taft Says Sugar Fraud Investigation President Taft has sent a special message to the house of representatives to tell why he considered congressional investigation of the sugar frauds in the customs service inexpedient.

It is because "a congressional investigation at this time would be to embarrass the executive department in the continuance and completion of the investigation of the appraisers and other officers in the customs service."

The president's reply was to a resolution passed in the house on April 14, calling upon him to state the reasons for not wishing a congressional investigation, as he had indicated in his message at the opening of the session.

In his answer the president said: "The necessity for congressional investigation arises first, when an executive investigation is either not its good faith, or is lacking in vigor, or when additional legislation is needed to prevent the recurrence of the frauds."

WESLEYAN IS CLOSED.

Wesleyan Institution May Suspend for Term on Account of Typhoid. Wesleyan Female College, at Macon, Ga., has been ordered closed probably for the term, by President Affmorth. Several days ago a number of the students became sick and physicians stated that two of the girls had typhoid and three more showed symptoms of having contracted the disease.

It is expected that most of the students, the majority of them being non-protestants, will leave for their homes at once. There are approximately 500 young ladies at the institution, and they come from nearly every state in the union.

Alabama republicans will split
again this year and promise to
nominate two full tickets. It
looks very much like splitting a
fraction to see this little spotted
pa 7/ part.

A large number of cotton mills
have shut down in the hope of
breaking the price of cotton be-
fore the new crop comes in.

Several hundred thousand
bushels of peaches and other
fruits have rotted in the orchards
of Alabama this season because
the people could not find a market
for it, and were not prepared to
preserve it in any way. In a
month or two we will all be pay-
ing fancy prices for California
canned fruits. It is little wonder
that the South stays poor under
such management.

A writer in The Age Herald
suggests that Jefferson county use
her convicts in building roads.
The suggestion is not only good
for Jefferson but for every county
in the state. The public roads
are the place to work convicts,
and is the only place where they
should be worked. It is poor
policy for the state to hire con-
victs to private parties when so
much labor is needed on roads.

Carelessly compounded pre-
scriptions are not always dan-
gerous but they will nullify the skill
of the best physician in the world.
Therefore you should take your
prescriptions where you know they
will be filled accurately and care-
fully—just as they are written.
The City Drug Co. is the place.

The commission form of govern-
ment for cities seems to be grow-
ing in popularity everywhere. If
it is good for cities it is also good
for towns, and will doubtless con-
tinue to spread until all towns in
the state are put on this plan and
run a business basis. It is un-
questionably true that under the
present plan of municipal govern-
ment, the public gets much less
for its money than any individual
would be satisfied with.

Some of our neighboring coun-
ties are inclined to be hostile
about the amount of taxes collect-
ed. We can't see anything in
this to boast of; we would collect
a small amount of taxes and then
have large benefits to the public
to blow about.

The railroads and banks pay
one-third of the taxes of Pike
county. It is pretty good to have
those "anxious" corporations
when the tax collector starts
round.

We want to show you our out-
glass and jewelry, they will surely
tickle you, and the prices will
make you smile out real loud.

MR. TAFT SHIES AT THE TARIFF ISSUE

Politicians Credit President With Shrewd Move.

The tariff is not to be an issue in
the 1912 national campaign. It Presi-
dent Taft can help it. Political lead-
ers credit President Taft with one of
the shrewdest moves ever made in
politics, to remove the troublesome
tariff question out of the next na-
tional campaign.
When President Taft commenced
his campaign for a national tariff
board, which would investigate the
workings of the tariff law and report
its findings to the president, instead
of congress, it was generally thought
that President Taft was anxious to
get in close personal touch with the
benefits and the abuses of the Payne-
Aldrich law. It was not guessed at
the time that another reason lay be-
hind the move for the board.

Now it is evident that the tariff
board will take at least two years for
its work before its report is made.
The report will be secret and no one
will know what it contains save the
president and the members of the
board.
In the meantime should the dem-
ocrats attempt to change their campaign
upon the tariff, republican leaders may
be able to offset this attack in some
degree by saying:
"The tariff is being investigated
now by the national board. Its re-
port will be made to President Taft.
The president will mold a bill to re-
peal its defects and his ability to
push legislation is too well known
for comment."

At the 1911 session of congress it
is believed that the insurgents will
bring up the question of tariff revision,
but their efforts along this line
will be balked by the fact that the
tariff board is at work.

A RETURN MATCH.

It is said Jeffries may ask Sam-
uel White Johnson.
Jim Jeffries may ask for a return
match with Jack Johnson, is a state-
ment contained in a Los Angeles dis-
patch received at New York. The in-
formation, which is said to come from
reliable sources, says that Jeffries is
eager with declaring that he would
fight upon a return match with John-
son within six months following the
return from his hunting trip in the
mountains.
Jeffries, it is said, claims that if he
can go in the ring in as good condi-
tion as he was a few days before
the fight at Reno, he could defeat
Johnson. Sam Berger, manager for
Jeffries, will make a statement later.

COST OF CARRYING MAIL.

Hitchcock Has Experts at Work in-
vestigating the Railroad Rates.
Postmaster General Hitchcock will
spend the greater part of his sum-
mer vacation figuring on a way to
reduce the cost of hauling the mails.
In a few weeks the postoffice de-
partment will be able to determine de-
finitely what it costs to handle the
United States mail.
The work of compiling this infor-
mation is under way now. When the
postmaster general recently announ-
ced that an increase in postage would
be a good thing for certain classes
of mail matter, newspapers and mag-
azines commenced a crusade, giving
figures to show that the postoffice
department was being run at a loss
where profit could be made if it was
run on a business basis.
A fight was made in congress to
have the matter of railroad mail
rates investigated, but those behind
the movement were not successful.
However it is possible that a con-
gressional investigation may be urged
at the next session. At any rate, con-
gress will likely be asked to adjust
the rates and lower the tariffs which
the railroads have been demanding for
the handling of the United States
mails.

PERFECT ORGANIZATION.

Sea Island Staple Growers Form As-
sociation for Mutual Benefit.
Sea Island cotton growers from
three states met at Waycross, Ga.,
and perfected an organization under
the name of the Union Sea Island
Cotton company which will have
headquarters at Savannah and which
purposes to build a large warehouse
there with branches at various points.
The purpose of the union is to se-
cure for the producer the best pos-
sible prices for both long and short
staple cotton. Reports on crop con-
ditions by members of the company
are to the effect that the Georgia crop
will be 75 per cent of the normal, and
that of Florida 60 per cent.

A bill goes into effect in Nevada
on September 1 prohibiting gam-
bling. This means that open bet-
ting on the Burns-Langford fight may
be barred. Nevada is the last state
in the union to prohibit public gam-
bling. Up until September 1 the faro
layouts, the poker joints and the ros-
ette halls will flourish like the green
bay tree. As the time draws near
for the lid to go down, Reno is en-
joying its heyday.

CATHOLIC KNIGHTS MEET.

Conclave is held at Nashville, Tenn.
Delegates Welcomed.

The general council of the Catholic Knights of America was convened at the state capitol in Nashville with seven hundred delegates and visitors from various parts of the United States. The opening ceremonies of the all-proceedings high mass was presided by Right Rev. Thomas S. Byrne, bishop of the diocese of Nashville. At the conclusion of the service preached by Right Rev. John A. Glendon, archbishop of St. Louis.

The Catholic "Knights of America" was founded in 1877 and the first annual convention was held in 1906. This year's conclave was held at the residence of Eugene Daniel U. Burke, in Nashville. It grew in numbers rapidly and gradually expanded its efforts, until it now has over 100,000 members. In the past day there are in the union, until today, more than 100,000 members. Cells with a supreme council located outside St. Louis, and over \$100,000 money has been distributed in benefits.
